

COVID-19 HYGIENE & SAFETY PROTOCOLS

Throughout our history of nearly a century, The Peninsula Hotels has weathered many highs and lows. We feel it is our strong legacy, resilience and exceptional heritage which enables us to overcome adversity and emerge stronger.

As a Hong Kong headquartered company, we believe our experience from the 2003 SARS crisis places us at the forefront of setting the standards for hygiene and safety within the luxury hospitality sector.

The safety, health and well-being of our guests and our employees remains our highest priority. We are committed to providing an exceptional and unparalleled experience, including increased health and hygiene measures that go beyond the necessary protocols required by local government authorities. Many of these efforts will be noticeable, such as the distancing of tables, face masks worn by employees and temperature checks. We are also making an enormous effort behind the scenes with several initiatives that will not be noticeable to guests. While some of these efforts may be temporary, The Peninsula Hotels is committed to continue to review and refine our protocols to ensure our guests continue to enjoy relaxing and memorable Peninsula moments.

THE PENINSULA

H O T E L S

WHAT OUR GUESTS WILL EXPERIENCE:

Reservation flexibility

Seamless check-in and check-out service, reducing contact for those who prefer to do so

Employees wearing face masks, but rest assured our warm Peninsula smile remains present

In-room directory, restaurant and spa menus easily accessible from a guest's own personal device through a dedicated URL and QR code, reducing contact of items

Additional distancing of tables and seating arrangements for groups and events, restaurants, bars and event spaces

PenChat, a bespoke, 24-hour private messaging service specially designed to deliver smarter, faster and more intuitive and personalised responses to guest requests in a contactless manner

Body temperature screening of all guests and employees entering the hotel where possible

Limitation of the number of guests in the fitness centre and spa, along with equipment sanitisation by our staff after each use

In-room amenities, including face masks, hand sanitiser and alcohol wipes

24-7 on-call house doctor

In-room items such as glassware, minibar may now have a security seal applied to signify the item has been thoroughly sanitised

WHAT OUR GUESTS MAY NOT NOTICE, BUT REST ASSURED IT'S BEING DONE:

- While already present in some of our hotels, each hotel will have a dedicated Hygiene Manager. This position reports directly to the Hotel Manager and through training, inspection and laboratory testing is responsible for ensuring that the hotel's high hygiene standards are met in guest rooms, public spaces, restaurants and bars, spa, fitness centre, transportation fleet, back-of-house area and any space where guests and employees are present.
- New processes and increased frequency of cleaning of air filters and air handling units have been implemented.
- Dedicated housekeeping teams continue to provide best-in-class service through a regimented procedure that prioritises areas of the guestrooms to ensure there is no cross contamination and that the environment remains clean throughout the process. We have also increased the sanitising of frequently touched surfaces in public areas and guest rooms, such as telephones, remote controls and tablets.
- Trialling the utilisation of new cleaning technologies and advancements, such as Premium Purity and Germagic. These products, when applied to surfaces, become self-disinfecting with the ability to decompose bacteria, viruses and airborne mould spores. Also, we are working with partners who use UV technology to ensure hospital grade disinfection.
- Conducting post Covid-19 process training, developed for employees to ensure they are well-prepared to provide a safe, clean and secure environment.
- Requiring all third-party providers to ensure their adherence to Peninsula's strict cleaning standards for any service provided, such as car transportation.
- Colour coding system for cleaning supplies is being utilised to ensure no inadvertent contamination of guest and public areas.

The Peninsula Hotels was founded from a desire to provide travellers with a safe, clean, comfortable and luxurious respite after a long journey. This principle lives on today with our dedicated and loyal employees who graciously await our guests' return.

We understand that some guests may want to know more, so we kindly invite them to speak with a Peninsula representative to answer any questions they may have. Please contact us at peninsula.com/contactus
